KEEPING YOUR SUPPLY CHAIN ON TRACK

TRUCK LOADING/ UNLOADING CONVEYORS

Twin Boom Truckloader with Crank Elevator

Conveyco manufactures telescopic conveyors & boom conveyors, vital for truck loading and unloading both in a warehouse or any place where goods need to be moved rapidly and efficiently.

Goosneck Truckloader with Crank Elevator

Advantages of using truckloader:

- cuts labour costs during loading / unloading
- saves space
- quick and efficient loading method
- low maintenance costs

These conveyors can move goods into or out of trucks without a worker pushing the product.

Truck loading conveyors are very mobile and are adjustable via manual winch or hydraulics.

Single Boom Bag Stacker - Manual Chain Winch

Twin Boom Bag Stacker - Hydraulic Elevation

Ball castor units mounted inside a truck for aircraft containers - Stopper bars to secure containers

Mobile Aluminium Gravity Roller Conveyors (clip together)

Gravity Roller Conveyor - Stowed Away (Before Loading)

Gravity Roller Conveyor (During Loading)

Gravity Roller Conveyor - Stowed Away (After Loading)

Hinge-up fixed gravity roller conveyor sections mounted inside trucks

- Improves loading & unloading time, especially in the courier industry
- Hinge-up function with spring loaded locking pins allows quick & safe operation
- Design makes for neat storage whilst in transport and takes up minimal space
- Bolted to truck prevents conveyor units from being stolen or "lost"
- Rollers can be made from alluminium to make conveyor extra light weight if desired

Gravity conveyor is a lightweight, low cost, and ergonomic way to move materials.

Decline Gravity Roller Chute Conveyor

Mobile Telescopic Gravity Roller Conveyor with Multiple Leaves

Mobile Expandable Flexible Gravity Roller Conveyor

Mobile Expandable Flexible with side flexing ability

Mobile Gravity Roller Conveyor (clip together)
